

**MILL CREEK** > VINYL SIDING

Mastic is backed by Ply Gem, a division of **Cornerstone Building Brands**, the largest manufacturer of exterior building products in North America.

Our Mastic siding products carry a superior warranty, providing comfort as you create the exact home you want for decades to come. And thanks to the industry's most advanced engineering processes, Mastic products deliver darker colors and better performance than were possible just a few years ago.

Dream big on your new home or remodeling project—with Mastic.

true to life

Mill Creek Double 5" Dutch Lap in White

No paint. No stain. No hassles. Mill Creek® offers a rustic, textured finish that captures the warmth and beauty of wood but offers all the benefits of low-maintenance vinyl siding. Its exceptionally durable panels hold tight even in extreme weather.

Featuring a realistic wood grain, Mill Creek is available in a variety of colors.

**ADVANCED LOCKING SYSTEM AND NAIL HEM**

Precise, secure fastening, easier installation and tighter fit combine to deliver added strength and stability — even in high winds.

**.040 NOMINAL THICKNESS**

**WIND VELOCITY — RATED UP TO 145 MPH**

Proprietary design and engineering delivers a panel that achieves superior wind resistance. Standard Wind Load Design Pressure (DP) of 40 PSF\*\* and can resist a Wind Velocity of up to 145 mph.

**HANG-TOUGH™ TECHNOLOGY**

Exclusive formulation and process boosts durability so panels are more resistant to cracking, impact and thermal distortion. As an added benefit, rich color resides throughout the panel — virtually eliminating the appearance of nicks and minor surface scratches.

**1/2" PANEL PROJECTION**

Enhanced shadow lines replicate the appearance of real wood siding.

**V.I.P. LIMITED LIFETIME WARRANTY**

Premium guarantee of lasting quality and peace of mind — backed by Ply Gem, a trusted industry leader for 75+ years (see warranty for complete details).

**SUSTAINABLE FORMULA FOR VINYL SIDING**

Crafted of readily available natural materials — Mastic vinyl siding is safe, sustainable and recyclable.

**NO PAINT. NO STAIN. NO HASSLES.**

Since vinyl doesn't require paint or stain, harmful VOCs aren't released into the atmosphere.

**CLASS 1(A) FIRE RATING**

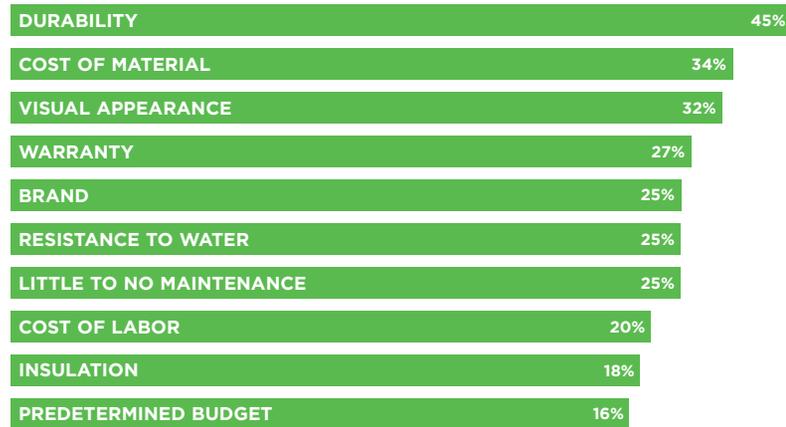

**MIAMI-DADE COUNTY APPROVED**

\*\*Tested in accordance with ASTM D5206. Windspeed rating will vary depending on specific code region and construction method. Refer to local building codes for detailed requirements concerning allowable wind loads and specified conversion tables for actual windspeed.

# Test our vinyl siding. We do. Rigorously. Relentlessly.

## Vinyl siding delivers what homeowners want.

Most important factors in siding material according to homeowners:

Source: Ply Gem primary research, December 2020

**DURABILITY.** If you're looking for siding that is durable and low maintenance, and looks beautiful, Mastic vinyl siding is the ideal choice. Mill Creek will enhance your home's appearance today — and last for years to come.

**COLOR AND TEXTURE.** Featuring a realistic woodgrain finish, Mill Creek is available in a variety of classic colors.

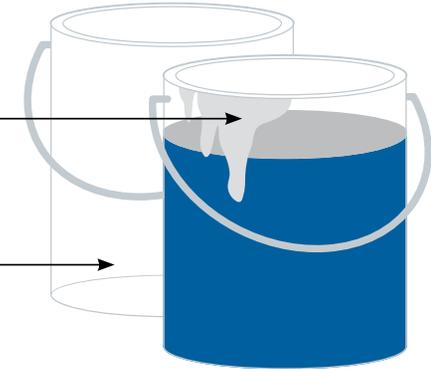

**BREATHE EASY.** Unlike some fiber cement products, vinyl siding does not produce harmful silica dust.

## No paint. No stain. **No hassles.**

Based on an average-size home, repainting or staining can cost up to \$6,000 every four years. Mill Creek never needs paint or stain. Unlike real wood siding, it won't crack, peel, flake or rot. Revolutionary technologies like Ply Gem's exclusive Hang-Tough™ Technology and Duranyl® 5000 Protection System maximize the panel's weatherability and deliver additional protection — and peace of mind — for your investment.

### TIME-TESTED. CERTIFIED. AND MORE.

Mastic vinyl siding products are certified through the Vinyl Siding Institute (VSI), which sponsors third-party certification to ensure vinyl siding quality. Mastic vinyl siding meets or exceeds ASTM D3679 performance standards for impact resistance, weatherability, product thickness and performance in extreme conditions — all requirements in the VSI certification program.\*

\*Consult the VSI website at [www.vinylsiding.org](http://www.vinylsiding.org) for a current list of certified products and colors.

**VIP LIMITED LIFETIME WARRANTY.** Mill Creek is backed by a Limited Lifetime Warranty. Enjoy a premium guarantee of lasting quality and peace of mind from Ply Gem, a trusted industry leader for 80+ years. See warranty for complete details.

# A HEALTHY HOME STARTS WITH THE BASICS

You want the best health for your family — and that starts at home. We offer a full line of coordinating accessories so your home can be healthy from the outside in.

**Why does ventilation matter?** Vents protect your home from heat and moisture buildup and keep fresh air moving. Sturdy and well-built, Ply Gem vents are specially engineered to deter insects, birds and other animals. They're easy to install on all types of siding and come in hundreds of colors and a variety of designer styles. Best of all, Ply Gem vents are constructed of high-performance, long-lasting vinyl for a lifetime of low maintenance.

## UTILITY VENTS

Sturdy utility vents provide excellent cross-ventilation of garages, foundations and range hoods. The louvered exhaust vent is ideal for removing the moist air of dryers and bathrooms. Intake louvers and soffit intakes work in tandem with vents to maximize the flow of air, allowing your family to breathe easier. With our utility vents, a home not only looks beautiful, but feels fresher.

## GABLE VENTS

Typically installed at the peak of a roof, gable vents encourage proper airflow in your attic. Ply Gem gable vents allow maximum ventilation and feature a special snap-on system for easy installation and cleaning. Whether you choose to have your gable vents blend in with your siding or stand out as a decorative accent, you'll find a variety of stylish options.

## VENTURA® HIDDEN VENT SOFFIT

Sculpted in clean lines and smooth surfaces, Ventura Hidden Vent Soffit features a contemporary, long clear span design. It allows 50% more airflow, reducing utility bills and preventing mold and mildew damage.

**OIL CAN TEST** Siding panels are placed under heat strips and saturated to 120° – 140°F to make sure the siding doesn't warp or buckle.

**WEATHERING** Color retention (resistance to fading) is tested by subjecting Mastic products to real-time weather conditions and accelerated UV testing. This ensures that Mastic products will hold up in the most extreme environmental conditions.

**RIGIDITY** Panels are designed and engineered to be more rigid so the siding remains straight on the wall.

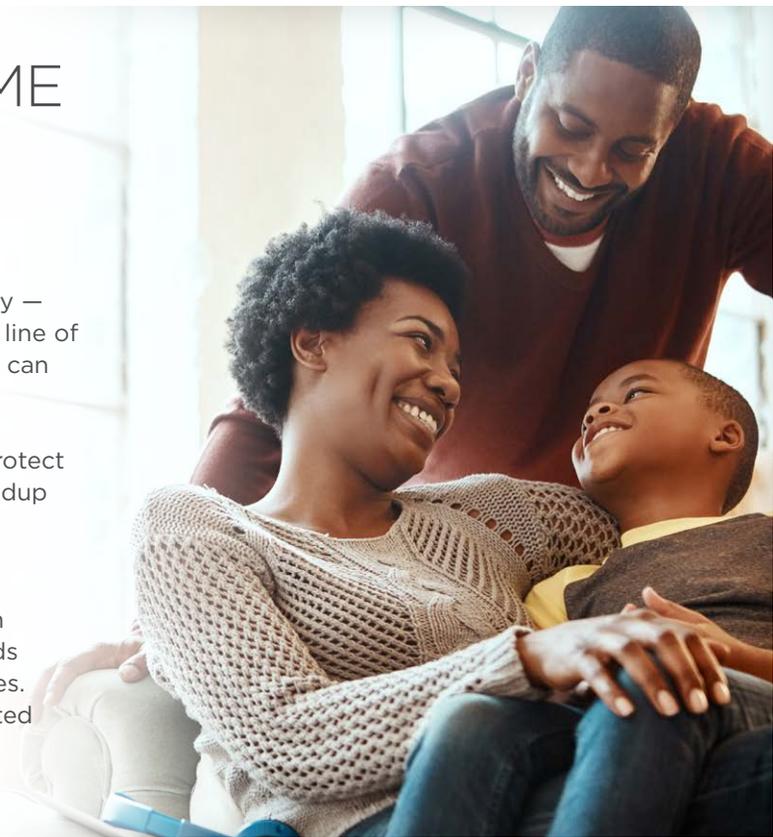

**COLOR READ TEST** Using a spherical spectrophotometer, a 10,000-watt xenon flash tube bounces light off a siding panel. This information is then analyzed to determine if the color falls within accepted ranges for color consistency and match.

**VERTICAL HEIGHT IMPACT TEST** Measures the product's durability and ability to resist impact forces — the result of proper thickness, formulation and impact modifiers.

**GLOSS TEST** A digital readout microgloss meter is used to scan siding to determine if its gloss falls within a target range. Gloss is important to the aesthetic appeal of the siding.
